Exclusive support and resources about DUPIXENT[®] (dupilumab)

Using a specialty drug may be new to you.

Your healthcare provider and **DUPIXENT MyWay**[®] can work together to make the process easier

Here are some tips for making sure you receive DUPIXENT[®] (dupilumab) as quickly as possible.

DUPIXENT is likely to be accessed differently

than your other medications. DUPIXENT is an injectable medication and **requires special shipping and handling**. Insurance providers often require use of a specialty pharmacy instead of your local retail pharmacy. *DUPIXENT MyWay* can work with your insurance provider to identify a preferred, in-network specialty pharmacy.

Insurance providers often require additional medical information

before approving coverage for specialty medications. This process, called a prior authorization, may lengthen the time it takes to receive DUPIXENT. It can take approximately 10 days for your insurance provider to make a decision about your DUPIXENT prescription. Please note: Approval times may vary based on insurance provider and individual plan policies.

It is important to promptly respond to calls

about your DUPIXENT prescription to help avoid delays in processing your prescription. You can expect to receive phone calls from your healthcare provider's office, *DUPIXENT MyWay* Nurse Educator, and specialty pharmacy.

You cannot receive DUPIXENT until you speak with your specialty pharmacy to schedule your DUPIXENT shipments

DUPIXENT MyWay is available along the way

to help you and your healthcare provider's office navigate the process of obtaining DUPIXENT and can also provide nursing support throughout your treatment journey.
